## Spring has sprung

## What does 44,691 litres of rainwater attenuation look like?

We've recently completed SuDS installations in 8 out of 32 schools in the Eastbourne and Southern Wealden areas as part of the Blue Heart: SuDS for Schools initiative. We've delivered **89 SuDS planters, 9 water butts and 1 rain garden** in schools so far.

[Watch](#) to hear from our Head of Design Alex and other project partners.

[Read our case study to find out more](#)

We planted **over 15,000 bulbs** last year across our sites in the UK and the spring blooms are looking amazing! Follow us to see more...

## Local art in bloom!

Our Leighton Buzzard planters are getting a heritage and community-inspired makeover. Stay tuned to our channels to see the final masterpiece.

## Community power planting

New rain gardens are now thriving in Waltham Forest thanks to a fantastic local planting day with residents and school children. More coming soon!

## DfE school SuDS funding awarded

**Congratulations to all the schools who have received funding for Sustainable Drainage Systems in schools.**

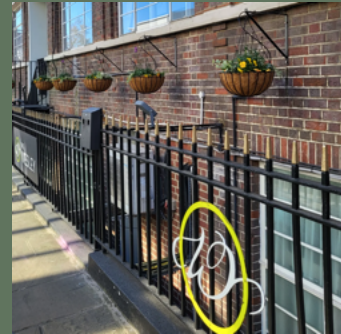

We've previously helped 100s of schools who have been awarded DfE SuDS funding. If you are one of the lucky ones to be awarded in this new round, get in touch with us for free support and guidance.

# New community garden for The Wesley Hotel, Euston

We recently helped create a welcoming community garden for The Wesley. In addition, we enhanced the hotel's entrance with vibrant hanging baskets. The garden now provides a peaceful retreat for local people to enjoy, while aligning with The Wesley's sustainability goals.
