

Summer in full swing!

It's been another season of SuDS, [nature gardens](#) and sustainability for our team this summer. We've been busy collaborating and partnering with local authorities, schools and our other key sectors to deliver vibrant and effective urban greening projects across the UK.

Learning grows outdoors

From festival to high street

We've installed a lot of [SuDS planters](#) across schools, run interactive [nature workshops](#) and delivered engaging nature gardens to help reconnect school children with nature.

[Discover more](#)

Our innovative [parklet](#) won a silver medal at the RHS Hampton Court Garden Festival before moving to Walton. Check out how we captured the interests of the community in our design.

Greening our cities

We're continuing to work with councils to breathe like back into cities. Recent highlights include installing [custom street furniture for Blackpool Town Centre](#), planting [rain gardens](#) across the London borough of Hackney and Waltham Forest, and helping to create [Westminster's first School Superzone](#).

Planting with purpose

Long Lane and Barts Health NHS Trust have a fresh new look thanks to Culture Mile BID's Big Plant Out Day where we advised and helped volunteers plant new flower beds with Publica.

Funding Opportunities

The GOV.UK [SuDS in Schools grant scheme](#) is open until **20 October 2025**, offering schools funding to manage surface water, cut flood risk, and create greener outdoor spaces for pupils and communities.

The first round of the [Thames Water AMP8 Surface Water Management Programme](#) is live, providing support for wider community projects that deliver sustainable drainage across the region. **Deadline: 13 October 2025.**

[Contact us](#) to discuss how we can help shape your proposal and bring your project to life.

We can support partners with:

- Planning and scoping projects
- Preparing funding applications
- Design, delivery and maintenance
