

Apply now for the Green Roots Fund

Meristem Design is here to help you access up to £500,000 from the Green Roots Fund for green and blue infrastructure projects across London.

Deadline: 2pm, 21 August 2025

Funding amount: £10,000-£500,000

Who can apply: Councils (London), BIDs, charities, housing associations, community groups, tenants and residents' associations and other relevant public bodies

There's only a few more weeks left to apply so if you haven't yet, get in touch and let's get started on your Green Roots Fund application.

Why apply for the Green Roots fund?

Flood resilience

Climate adaptation

Biodiversity boost

The Green Roots Fund aims to **deliver a greener, more climate resilient city** by providing grant funding to transform London's neighbourhoods and ensure that all Londoners can benefit from nature-rich environments.

How can we help?

If you're considering an application to the Green Roots Fund, **we can support you at every stage:**

- Project scoping and concept development
- Visuals, plans, and design work
- Community engagement and co-design
- Delivery, installation, and long-term planning

What projects are eligible?

Funding is available for both implementation and enabling works. That includes:

- Creating or restoring parks, green roofs, wetlands, or sustainable drainage systems (SuDS)
- Rewilding, tree planting, and climate adaptation (e.g. urban cooling, flood prevention)
- Community outreach, co-design workshops, feasibility studies, and micro-grant schemes
