A look back at October

Over 300m² of rain gardens in Hackney

Last month we completed phase 2 of the Downham Road regeneration. We planted **18** rain garden beds with more than **2170** plants to enhance biodiversity and brighten up the area for the community.

Bulbs, boxes & big moves

It's bulb planting season! We had a delivery of **14,000 bulbs** that we have begun planting across our sites to create lush green spaces come spring time.

We moved offices right next to our [Clerkenwell Green Rain Gardens](#). Seeing our work in action is a nice perk.

Got leftover pumpkins laying around after halloween?

Chop them up, mix with leaves, and toss into your compost bin or bury them. In a few weeks, you'll have nutrient-rich soil ready to feed your garden or planters.

We're heading to Liveable Neighbourhoods

On the **20th of November**, we'll be back at the [conference](#) in Enfield, talking all things people-friendly streets, where our director, Habib, will be speaking. We also have complimentary tickets for any local authorities who may wish to attend.
